

Información Asignatura

Desarrollo de Aplicaciones para Internet

Horarios

Teoría	Viernes	10'30 - 12'30	Aula 1.3	J.M. Guirao
Prácticas Grupo 1	Jueves	10'30 - 12'30	Aula 3.9	J.M. Guirao
Prácticas Grupo 2	Viernes	08'30 - 10'30	Aula 2.6	J.M. Guirao
Prácticas Grupo 3	Jueves	12'30 - 14'30	Aula 3.3	Miguel Gea

Todos los materiales en → swad.ugr.es

Entregas de prácticas en → swad.ugr.es

Evaluación

- Continua:

||

- Única:

– Prácticas entregadas en su plazo

- Examen teórico/práctico Enero

&&

– Examen teórico último día de
clase

– Examen práctico eliminatorio
"anti-IA" en las aulas de prácticas

Aplicaciones Distribuidas Cliente - Servidor

La respuesta del servidor depende únicamente del request

NO depende de los requests anteriores

un servidor <=> varios clientes

un servidor, siempre encendido, espera request de **varios** tipos de clientes, que pueden tener distinto tamaño de pantalla y capacidad de proceso

Haremos: [Desarrollo Web](#)

Project development environment

Development

Staging

Production

En el git

Front End

- Markup and web languages such as HTML, CSS and Javascript
- Asynchronous requests and Ajax
- Specialized web editing software
- Image editing
- Accessibility
- Cross-browser issues
- Search engine optimisation

Back End

- Programming and scripting such as Python, Ruby and/or Perl
- Server architecture
- Database administration
- Scalability
- Security
- Data transformation
- Backup

Componentes en el back end

Traditional Web Apps o Multiple Page Applications

Lo que hace php, django, etc

MPA Design

Otra posibilidad es Single Page Applications

Multi-Page Lifecycle

SPA Lifecycle

Single-Page Application (SPA)

Step 1

The page loads and requests static assets from the web server.

Step 2

The frontend framework renders the layout using the HTML and CSS.
The JavaScript is executed and requests data.

Step 3

The JavaScript loads the data in the page.

Step 4

The user interacts with the page, more data is requested and loaded.
The page is updated without having to reload.

Single Page Applications

Pros y cons

Enfoque mixto: Server Side Rendering

The untold history of web development

The Evolution of Web Apps 1992-2024
